Medisafe Endoscopy Catalogue
Endoscopy Disposables, Pre Cleaning, Patient Wear
Medisafe has a range of products to assist with your endoscopy requirements, guiding you through the entire process, from clinical procedure disposables which aid in theatre to decontamination of scopes, from bedside through to your endoscope decontamination suite.
## Biopsy Forceps

Medisafe has an extensive range of single use Biopsy Forceps, which includes both oval and alligator cup and can be supplied with or without needle.

All of our Biopsy Forceps are supplied with a ribbed coated sheath to aid insertion, and the swinging jaw mechanism aids tangential biopsies. Our Biopsy Forceps have unique colour coded retractors which helps to identify the compatibility area. Both the oval and alligator forceps can be supplied with needle which can offer improved anchorage of foreign bodies and mucosal tissue biopsies.

Medisafe’s Biopsy Forceps offer a unique colour coded handle system for clear identification purpose.

## Disposable Polypectomy Snare

Medisafe Endoscopy’s new range of Polypectomy Snares allows for optimum comfort and speed during colonoscopic Polypectomy and endoscopy mucosal resection.

- Smooth open and close mechanism for optimum ease of use
- Available in 6 different size loop diameters to allow for the effective resection of all size polyps
- Oval and hexagonal options available
- Integral handle gauge allowing you to estimate the size of the captured polyp
- Smooth sheath to prevent scope damage
- Single use

**Sclerotherapy Needle**

Used to introduce a sclerosing agent or vasoconstrictor to control bleeding within the digestive system. It can also be effectively used to aid mucosal and polyp resection.

- Easy grip handle
- Needle designed for optimum facilitation of injection
- Strong but smooth pushable sheath
- Easy loading
- Available in different lengths and gauges

**Order #**

M20732 - Injection Needle – 6mm, 230cm (box 10)

---

**Reliance Hemoclip**

Medisafe are pleased to introduce our new Reliance Haemostasis Clip for optimum comfort, speed and dexterity during surgery.

- Can be repositioned and realigned
- Complete clip closure
- Ridged grooves make clip resistant to slippage
- Easy loading
- Smooth sheath prevents scope damage
- Opening range 11mm / working length 2300mm
- Single use

**Order #**

M20736 - Reliance Hemoclip - (box 5)

---

**Mouth Guards**

- Prevents damage from endoscope
- Supplied with or without head-strap for added security
- Single piece mould offers added strength
- Large port for added comfort
- Easy access for suction
- Latex Free
- Individually wrapped – sterile
- Also available in paediatric sizes.

**Order #**

M20701 – Mouth Guards with Strap (box 100)
M20737 – Paediatric Mouth Guard (box 100)
Biopsy Port Valves

- Soft TPE material allows for easy and smooth passage of endoscopic accessories
- Close fitting to enable secure anchor of Biopsy Valve to the Biopsy port
- Suitable for Olympus and Pentax Endoscopes
- Black, individually bagged
- Effective, low cost
- Sterile
- With tracking traceability

Order #
M20702.1 – Port Valves - Olympus GI (box 100)
M20702.2 – Port Valves - Pentax (box 100)

Scope Brushes

Fully disposable double ended cleaning brush 240cm in length 5mm bristle diameter to clean channels 2.0mm and larger.
The leading brush will push any gross matter through the channel and the alternate end will work to carefully pull any remaining debris away without causing damage to the scope.
- ‘Super Glide Bobble’ prevents scratches and snagging of expensive scopes
- Semi-textured “Super Glide Grip Tube” with high grasp security
- Soft, active nylon bristles
- Easy insertion of brush into long sensitive endoscope
- Increased cleaning efficiency

Colonoscopy Shorts

- Single use unisex design
- Available in 2 sizes: Large & XLarge
- Comfortable and lightweight
- 2 options available – with either flap and fixing point or slit
- Also suitable for flexible cystoscopy

Order #
M20280 – Blue Colonoscopy Shorts – Large with Slit (box 100)
M20279 – Green Colonoscopy Shorts – X-Large with Slit (box 100)
M20291 – Blue Colonoscopy Shorts – Large with Flap + Velcro Fixing Point (box 100)
M20292 – Green Colonoscopy Shorts – X-Large with Flap + Velcro Fixing Point (box 100)
Endoscopy - Personal Protection

Disposable Face Visors
Inexpensive visor one size to fit all design, strong but lightweight. Easy to put on or take off. Fits over glasses and replaces goggles, in some cases even masks. Unbreakable and glare resistant.

- Latex free
- Anti Fog (both sides)
- Contoured foam for better fit and comfort
- Lightweight & comfortable to wear
- Fits comfortably with a surgical mask & over prescription eyewear

Order #
- V3505040 - Standard Length - 33cm x 19cm - pack of 200
- V3505040.1 - Longer Length - 33cm x 25cm - pack of 200

Full Face Visors
The anti-fog, latex free eyeshields are designed to protect your eyes and face by preventing exposure from hazardous or infectious substances.

- 10 stylish colours for easy identification
- Lightweight & comfortable to wear
- Optical grade lens
- “Wraparound” design provides both front & side eye protection

Order #
- MED1000.05 - Full Face Visor - pack of 10
- MED1000.06 - Full Face Visor Shields - pack of 25
- MED1000.03 - Starter Pack - 3 Face Visors & 15 Shields

Eyeshield Lenses and Frames
Anti-fog Eyeshield Lenses and 10 colours frames for easy identification. Clearly unique protection for your eyes against bodily fluids, flying debris, splashes and aerosols.

The frames are available in the following colours: blue, red, purple, light green, medium green, dark green, yellow, black, white and fluorescent pink.

Order #
- MED100.91 - Eye Frames - pack of 20
- MED100.92 - Eye Lenses - pack of 50
- MED100.84 – Frames and Lenses – pack of 10 frames & 25 lenses

Waterproof Gowns
The front of gown and sleeves are made of high risk fibre material and the back is made of airy non-woven fabric, which has an opening with two tie belts at the neck and waist. The gown has overlocked stitched seams and sleeve cuffs are knitted.

- Breathable
- Front Part - high risk fibre
- Back Part - Polypropylene non-woven fabric, antistatic
- Sleeve- high risk fibre
- Knitted cuff - 100% polyester
- Sewing thread - 100% polyester 17-18 tex

Order #
- M20269.1 - M - pack of 100
- M20296 - L - pack of 100
- M20296.2 - XL - pack of 100
Disposable Gowns

Medisafe’s disposable gowns are an ideal use for visitors. Our gowns consist of soft non-woven fabric, with an open back and two tie-belts. The outer ending of the arm piece is an lock-seam bordered elastic strap.

- Used as a visitor gown
- Polypropylene non-woven fabric, antistatic
- Elastic straps are latex free
- Sewing thread - 100% polyester 17-18 tex

Order #
M20293 - L - Disposable Gown - pack of 100

Eco Pre-Clean

- Low-cost solution
- Two Tiered Design – 250ml or 500ml – suitable for all types of endoscopes
- Biodegradable tray
- Neutral or Enzymatic detergent sachet option included - just add water
- Scope sponge included
- Starts cleaning on contact and prevents coagulation
- Non-hazardous
- Single Use
- Easy to store, transport and dispose of

Order #
M20198 – Eco Pre Clean (with Enzyme sachet detergent) (box 100)
MED7832 – Eco Pre Clean (with Neutral sachet detergent) (box 100)

Scope Pre-Clean

- Complete kit designed for the initial flush and wipe of endoscope post procedure
- For use with all endoscopes
- Contoured “scope shaped” sponge included
- Single use, prevents cross contamination
- Starts cleaning and prevents coagulation on contact
- Use container to suction / flush channels
- Neutral or Enzymatic detergent
- Non-hazardous
- Easy to store, transport & dispose of

Order #
M20190 – Scope Pre-Clean (200ml Enzymatic) (box 56)
MED7830 – Scope Pre-Clean (200ml Neutral) (box 56)
MED7841 – Scope Pre-Clean Pot (500ml Enzymatic) (box 24)
MED7850 – Scope Pre-Clean Pot (500ml Neutral) (box 24)
M20199 – Scope Sponge (Dry) (box 100)
**Detergent Family**

**Neutra-Soak**

Eco and instrument friendly, non enzymatic pH neutral pre soak is an effective method of preventing post op residual soil from accumulating.

- Powerful non enzymatic instrument soak
- Non-foaming, non-corrosive
- Enzyme free
- pH neutral
- Biodegradable
- Odourless

Order # MED8012 - 6 x 500ml

**Enzyme Foam Spray**

A multi enzymatic foam spray ‘pre-soak’ for surgical instruments to prevent ‘post-op residual soil from building up. Instruments reprocessed as soon as possible after use will be more easily cleaned than those left for a number of hours. Where immediate reprocessing is not possible, Enzyme Foam Spray is intended to maintain a moist or wet environment to aid subsequent processing.

- Powerful multi enzymatic instrument soak with long lasting foam
- A pre-soak to prevent blood and debris coagulation
- pH neutral
- Prevents stubborn organic encrustation on instruments
- Bacteriostatic

Order # MED8050 - 6 x 500ml

**3E-Zyme Scope Plus**

Concentrated 3E-Zyme Scope Plus cleaning solution removes organic matter and fatty deposits from surgical instruments in as little as 30 seconds. Our unique non-foaming formula allows deeper penetration and cleaning inside endoscopes, fine lumened and cannulated instruments.

Can be supplied with Automatic Dose Pump & Digital Alarm Thermometer.

M10184 - 1 pump / M20515 - 1 Thermometer

Order # M20029 - 4L
M20200 - 10L

**Neutrasafe**

High Performance neutral detergent – pH neutral with no enzymes. Ideal for use with ophthalmic applications. The formulation reduces surface tension which allows deeper and more thorough cleaning of the most complex instruments. It absorbs the residues and holds them in suspension leaving other instruments free from cross contamination.

Can be supplied with Automatic Dose Pump & Digital Alarm Thermometer.

M10184 - 1 pump / M20515 - 1 Thermometer

Order # MED8031 - 4L
**EndoCheck**

Process challenge device designed for fine lumen devices and endoscope channels tests your machine’s complex lumen cleaning performance. Ingeniously designed to represent a difficult cleaning challenge, EndoCheck allows quick and easy visual indication when used in conjunction with Valisafe CEI.

- Soil removal efficacy system
- For use with scopes
- Use with Valisafe CEI indicators

**CEI (Cleaning Efficacy Indicator)**

Real blood test soil for use with Process Challenge Devices. CEI is designed for the validation and routine monitoring of the cleaning process for washer disinfectors / ultrasonic cleaners. Complies to ISO 15883 Part 5.

This is a visual indicator that helps you to identify that the load has been cleaned efficiently and can be used as a daily check. We use materials to closely replicate your dirty instruments using real blood and additives layered onto a stainless steel plate. Therefore recreating your dirty instrument.

**Scope-Check / Instru-Check**

The Brilliant Blue Scope Check protein test is a rapid test that has the ability to detect low levels of protein on all types of flexible Endoscopes. The Scope Check complies to CFPP0106 and is recognised as being one of the most sensitive tests available – detecting down to 1ug of protein within 10 seconds. The result is identified by a clear and concise colour change of the reagent. The 2.5m long swabs are supplied with 3 different diameter swabs, ensuring that all types of Endoscopes can be tested on a weekly basis in line with CFPP0106.
